

**SOLID-STATE LIGHTING:****Funding  
Opportunities**

The U.S. Department of Energy (DOE) has created a new online resource to help researchers, manufacturers, and distributors locate funding opportunities to help advance and deploy innovative, energy-saving solid-state lighting (SSL) products. Please note that DOE does not necessarily endorse or administer the programs or resources listed. You will find the opportunities and resources listed below and more at [www.ssl.energy.gov/incentives.html](http://www.ssl.energy.gov/incentives.html).

**Support Areas****R&D** Research & Development**M** Manufacturing**C** Commercialization

A variety of federal funding sources are applicable to SSL research, development, manufacturing, and commercialization.

**DOE Lighting Programs**

**R&D** **DOE/NETL SSL Core Technology** projects focus on applied research needed to advance the technical knowledge base for SSL to be used for general illumination applications. Updates are posted at [www.ssl.energy.gov](http://www.ssl.energy.gov).

**R&D** **DOE/NETL SSL Product Development** projects seek to develop or improve commercially viable materials, devices, or systems. Updates are posted at [www.ssl.energy.gov](http://www.ssl.energy.gov).

**M** **Manufacturing Support** projects advance the technology's adoption by making SSL competitive with existing technologies on a first-cost basis. Learn more at [www.ssl.energy.gov](http://www.ssl.energy.gov).

**C** **The L Prize<sup>SM</sup>** is a government-sponsored technology competition to spur lighting manufacturers to develop high-quality, high-efficiency SSL products to replace the common light bulb. Learn more at [www.lightingprize.org](http://www.lightingprize.org).

**Other DOE Funding Programs**

**C** **Energy Efficiency and Conservation Block Grant (EECBG) Program** provides funds to units of local and state government, Indian tribes, and territories to develop and implement projects to improve energy efficiency and reduce energy use and fossil fuel emissions in their communities. Learn more at [www.eecbg.energy.gov](http://www.eecbg.energy.gov).

**R&D** **The Office of Science** provides basic research grants through an annual solicitation process. Learn more at [www.sc.doe.gov/grants/grants.html](http://www.sc.doe.gov/grants/grants.html).

## Helpful Resources

- The Database of State Incentives for Renewables and Efficiency (DSIRE) provides information on state, local, utility, and federal incentives and policies promoting renewable energy and energy efficiency. Learn more at [www.dsireusa.org](http://www.dsireusa.org).
- [Grants.gov](http://Grants.gov) is a source to find and apply for federal government grants.

## Recovery Act Funding Resources

- [Recovery.gov](http://Recovery.gov) provides current data on the use of Recovery Act funds. The site includes information about federal grant awards and contracts as well as formula grant allocations. Federal agencies provide data on how they are using funds, and prime recipients of funding detail how they are using their funds. As money starts to flow, more data will become available.
- [Recovery.org](http://Recovery.org) tracks stimulus-funded and other projects by state, how money is being allocated, and what opportunities are up for bid. The site provides search options by city, project type, cost, and publication date.
- Learn about DOE Recovery Act funding at [www.energy.gov/recovery](http://www.energy.gov/recovery).

Know a funding resource that is not listed here? Please contact [doe.ssl.updates@ee.doe.gov](mailto:doe.ssl.updates@ee.doe.gov).

R&amp;D

**Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR)** grants provide funding for competitions among small businesses. Learn more at [www.sc.doe.gov/sbir](http://www.sc.doe.gov/sbir).

C

**The Tribal Energy Program** promotes tribal energy sufficiency, economic growth, and employment on tribal lands through the development of renewable energy and energy efficiency technologies. Learn more at [www.eere.energy.gov/tribalenergy](http://www.eere.energy.gov/tribalenergy).

## Additional Funding Opportunities

Additional funding opportunities can be utilized to advance SSL.

### National Institute of Standards and Technology (NIST) Programs

M

**The Hollings Manufacturing Extension Partnerships (MEP)** provides companies with services and access to resources that enhance growth, improve productivity, and expand capacity. Learn more at [www.mep.nist.gov](http://www.mep.nist.gov).

### United States Department of Agriculture Rural Development Programs

C

**The Rural Energy for America Program (REAP)** provides grants and loans to help rural small businesses and agricultural producers make energy efficiency improvements. Learn more at [www.rurdev.usda.gov/rbs/farmbill](http://www.rurdev.usda.gov/rbs/farmbill).

### United States Department of Treasury (Internal Revenue Service) Tax Incentives

C

**The Energy-Efficient Commercial Buildings Tax Deduction** allows building owners to deduct the entire cost of a lighting or building upgrade in the year the equipment is placed in service. Learn more at [www.lightingtaxdeduction.org](http://www.lightingtaxdeduction.org).

### For More Information

For more information on these incentives, see [www.ssl.energy.gov/incentives.html](http://www.ssl.energy.gov/incentives.html).
